PROFILE

Senior Business Development and Technical Sales leader with **11+ years** driving consultant-led, specification-based sales for multi-vertical technical product portfolios across the GCC. Proven track record achieving and sustaining **preferred/approved-vendor status** with regional consulting firms, architects, and MEP planners — the exact mechanism through which a technical product range gets vendor-listed, specified, and ultimately purchased on a project. Currently Manager, Technical & Strategic Sales for a multinational electrical infrastructure manufacturer, where I own a collective sales target of **€5.5M** (approx. **AED 31M** end-user project value) for FY2026 — up from **€4.9M** (approx. **AED 27M**) delivered in FY2025 — set and tracked jointly with the **Director of Sales, MENA region**, and guide and coach a **15-person front-line sales force** (4 direct reports plus distributor sales teams reviewed weekly) across multiple product categories — working alongside each team on live opportunities to convert pipeline into closed sales against monthly and annual KPI targets. Skilled in translating complex technical specifications (earthing, lightning and surge protection to **IEC 62305 / IEEE Std. 80**) into consultant-facing technical presentations, product demonstrations, and go-to-market strategy — having planned and executed the strategic technical selling programme for **3 major product launches**, each achieving **20–30% revenue growth** in its first year. Engineering-trained (B.Tech, Electrical & Electronics Engineering) with a postgraduate business qualification (PG Diploma, Business Administration – Marketing), bringing equal fluency to technical specification discussions and commercial/team leadership. Represented my current employer at Light + Building (Frankfurt) and The Big 5 (Riyadh), and report directly to senior international leadership including the company's Management Board in Germany.

Manager, Technical & Strategic Sales Apr 2023 – Present

- ▶ Own a collective sales target of **€5.5M** (approx. **AED 31M** end-user project value) for FY2026 — including a **€3M** (approx. **AED 18M**) component — set and tracked jointly with the **Director of Sales, MENA region**.
- ▶ Delivered FY2025 collective turnover of **€4.9M** (approx. **AED 27M** end-user project value), including **€2.7M** (approx. **AED 16M**) — the base year against which the FY2026 target above represents continued growth.
- ▶ Achieve and sustain **preferred/approved-vendor status** with regional consultants, architects, and EPC contractors across 8 GCC, Levant, and North Africa markets — the foundation for consistent project specification and vendor-list inclusion of the company's earthing, lightning, and surge protection product range.
- ▶ Guide and coach a **15-person front-line sales force** (4 direct reports plus distributor sales teams, reviewed weekly) across multiple product verticals — working alongside teams on live opportunities to convert pipeline into closed sales against monthly and annual KPI targets.
- ▶ Plan and execute strategic technical selling programmes for **3 major new product launches** — translating engineering specifications into consultant-facing technical presentations and demonstrations — delivering **20–30% revenue growth** in each new category within its first year.
- ▶ Own commercial negotiation of a **€5M annual distributor agreement portfolio**, including the largest single order in the portfolio's regional history at **€1.2M**.
- ▶ Present regional performance, forecasts, and strategic recommendations directly to senior international leadership, including the company's **Management Board in Germany**.

Assistant Manager, Technical & Sales Jan 2020 – Apr 2023

- ▶ Built a new product vertical from **zero market presence** to an established, sustainably growing line within three years — reaching **~70% of annual target by Year 3** — including securing initial vendor listings and consultant approvals for the new product range across **7+ regional partners**.
- ▶ Established sub-distribution and retail partner channels across the UAE, growing the active partner base by **~20%** and expanding into product categories not previously served.
- ▶ Represented the company at **Light + Building** (Frankfurt, Germany) and **The Big 5** (Riyadh, KSA), strengthening consultant and specifier relationships across the region.

Senior Technical Sales Engineer / Technical Sales Engineer, OBO Bettermann MENA FZCO

Jan 2018 – Dec 2019

Senior Sales Engineer / Sales Engineer, Cupra International, Dubai

Nov 2014 – Dec 2017

Built the technical credibility and regional consultant/contractor network — spanning earthing, lightning protection, and surge protection systems — that became the foundation for the vendor-listing and multi-vertical sales leadership scope of subsequent management roles.
